

TWO BROTHERS

Settings - Introduction

NB: Teachers.

Background information on the location settings for the film Two Brothers can be found in the 'Scheme of Work' section of this CD-ROM under 'Background Information for Teachers'. The relevant curriculum links to this activity can also be found within the 'Scheme of Work' section.

This activity sheet asks pupils to think about story settings by examining the poster for the film Two Brothers and creating their own for a film made in their local area.

Settings – Pupil Worksheet

Two Brothers was filmed in Thailand and Cambodia. The story the film tells is set in the dense jungle of Indochina.

Study the poster image over the page and make a note of the visual clues that tell you where the story is set. Look at the sky, the buildings, the scenery and where the tigers are positioned.

Now imagine that a film about your local area is being made. On a separate piece of paper, design a poster showing the plants, buildings and people that would need to be included in your poster to make it clear that the film is set in your local area.

For fun, make up a film title for your poster!
